

## Popular items for carry-on baggage

- Travel documents including passport, ticket, boarding pass
- Ipod / Mp3 player
- Medication – make sure your prescribed medication is clearly labeled and doctor's certificate if you are carrying a substantial amount.
- Travel sized toiletries (100ml bottles in clear zip bag, see below)
- Travel size toothbrush and toothpaste
- Book / magazine / travel guide / reading material
- Sleeping items – travel pillow, sleeping masks and travel socks
- Spare underwear and tshirt
- Refresher wipes
- Lip balm & eye drops

## Liquids, Aerosols and Gels

Passengers travelling on international flights from Australia need to be aware of the quantity limits for liquids, aerosols and gels that can be taken through a security screening point at the airport.

- Liquid, aerosol or gel products must be in containers of 100 millilitres/grams or less.
- The containers must be carried in one transparent, resealable plastic bag, like the one in the image below.
- The four sides of the bag's sealed area must add up to no more than 80 centimetres (e.g. 20x20 cm or 15x25 cm).
- The plastic bag must be the type that can be sealed and resealed with a sealing mechanism, like a sandwich bag or freezer bag.
- Only one bag is allowed for each passenger, with exceptions for carers who may carry the bag/s of the people in their care, including children.
- All containers must fit comfortably into the plastic bag and the bag must be sealed.

Remember containers larger than 100 millilitres, even if only partially-filled, will not be allowed through the security screening point.

There are exemptions for passengers travelling with infants and prescribed medication.
